Her immense power and her lack of control over her guardians¹³ who have a will of their own, of which Necro is a personification of her violent instinct.^[12] While Undine seems to be one of her self-preservation^[13] only causes her grief, as she sees it as a curse, fearing to hurt others.^[14] Yet, while she resists violence when she can, Dizzy isn't necessarily a pacifist, as she understands destruction is simply part of the cycle of life.^[17] Due to her persecution by humans, Dizzy initially distrusts them^[7] and isolates herself, but this only causes her more sadness, as she longs for human contact. Gallery External links Notes ^[15] ^[16] ^[17] It is strongly implied that Aria Hale, engaged romantically to Frederick Bulsara at the time, was pregnant before being put to cryoseep by That Man in 2016 and while undergoing Gear conversion to become Justice in 2073. Testament thus vowed to protect Dizzy and subdued her. No one was seriously hurt, but Josephine slapped Dizzy, calling her a demon, and then told her to return to the forest. Paradigm says she can be unsealed, only to realize that Dizzy's cells (as Justice's daughter) are the "key" to enter That Man's Cube. In his desperation, he "rushes" her sealing and is unable to release her.^[10] After an attack to the capital by the Vizuel, Ky shows Dizzy's state to Sol, Dr. Paradigm and Izuna. With more men coming, he lets her go.^[14] but as a result of his defeat^[16] and due to anti-Gear sentiment at an all-time high, a W\$ 500,000 bounty for Dizzy's death.^[17] Testament fought off most of the bounty hunters, and if any managed to overcome them, they were quickly beaten back by the immense power of Dizzy herself. References Dizzy laments not having a strong heart like his, and Ky decides to fight her, showing her that there are humans who can handle her power.^[14] In jellyfish uniform.
